DIA STUDENT FELLOWSHIP

The Drug Information Association in Europe promotes the participation of students in the annual EuroMeeting by offering up to 15 complimentary registrations for **full-time under-graduate students** who are not yet working as drug development professionals.

If you are a part-time student, you should not apply for this Fellowship. You are, however, encouraged to apply for a student discount by contacting DIA Customer Services on +41 61 225 5151 or email diaeurope@diaeurope.org. The eligibility requirements for a discounted registration are:

- Undergraduate or graduate students who can document that they are enrolled in a degree or certificate granting, academic program in an accredited academic institution for at least 12 undergraduate hours annually or 9 graduate hours annually.
- In Europe License/Master/Doctorate students who can document that they are enrolled in a degree granting academic programme for at least 40 European Credits Transfer System (ECTS) annually.

The main objectives of the Student Fellowship are to create a platform to:

- increase the involvement of students in the annual DIA EuroMeeting
- stimulate mutual understanding and cross-culture co-operation
- allow knowledge acquisition and training for students

This Fellowship will allow students in Europe to:

- acquire knowledge
- develop an understanding of the strategies and concerns of the pharmaceutical industry and regulatory authorities
- interact with an industry network
- receive recognition and support from a neutral forum, i.e. the DIA

The DIA will waive the registration fees but attendees are expected to bear their own travel and accommodation cost. On acceptance, DIA will provide further information including advice on reasonably priced accommodation, if required. The students chosen will be expected to participate actively in the 24th DIA EuroMeeting and provide feedback afterwards on their experience.

Timeline:

Deadline for submission of completed applications	**27 January 2012**
Notification of applicants	**4 February 2012**
24th EuroMeeting Copenhagen	**26-28 March 2012**
